Report Submission — PFA Template

Every team will be given a **PFA (Project Feasibility Analysis)** report template once the event begins. Your final report **must be submitted using this template only** — it lays out exactly what to include, so there's no guesswork.

Your report should cover the following sections, in the template's format:

- Team details and roll numbers
- Problem statement
- Proposed solution
- Business Model Canvas
- Prototype / MVP summary

Submission deadline: Before the pitching session begins on Day 2 (by 4:00 PM, 6 September). Reports submitted after this time will not be considered for judging.
